

RAISBECK ZR LITE PERFORMANCE SYSTEM

Make time

When minutes count.... The Raisbeck *ZR LITE* Drag Reduction System for 31/35/36 series aircraft is the only way to make time in your Learjet. Climb 25% faster to an initial cruise altitude 3000 to 4000 feet higher, fly .02 Mach faster, and make fewer fuel stops—all while you bank up to 10% in fuel savings year after year.

Take time to make time. Call us today or visit our Web site for more details.
