

“Since installing *ZR LITE*, I have the fastest Learjet on all the NASCAR circuit. Believe me, those other guys don’t like running second!”

– RUSTY WALLACE
NASCAR Champion, Pilot of Learjet 31A-ER

“I always thought the Lear 31A was a great airplane. When the Raisbeck Aft Locker became available, I thought, ‘That’s really cool!’ Now I can put my tail stand, some luggage, golf clubs and skis back there. That really cleaned up the baggage problem of my 31A.

“But then when the *ZR LITE* kit came out, and I knew I could go faster yet? Hey, man, I get paid to go fast. I really like that one!”

Think Raisbeck. *It just makes good business sense!*
