

Think Raisbeck.

*F*or over 35 years, Raisbeck Engineering has been ahead of the curve with Learjet Performance Systems. Raisbeck's innovations include the Mark II and Mark IV Wings and the Aft Fuselage Locker, all of which were incorporated onto the Learjet production line.

Now, Raisbeck's *ZR LITE* Drag Reduction System is delivering fuel savings and an astounding return on investment.

Today, Raisbeck celebrates its 75th *ZR LITE* installation since the system was introduced in 2005.
