

# THINK RAISBECK

## KING AIR C90

# THINK BREAKTHROUGH

Break through operational barriers with Raisbeck's *EPIC* for the Beechcraft King Air C90. It opens thousands of additional airports worldwide, significantly improves takeoff and landing capabilities, and allows you to carry extra passengers and cargo.

The C90 *EPIC* is now available for every C90 model flying today, including the C90GT, and is currently in the certification process for the new C90GTi.

Visit us at NBAA 2008 this October 4th-6th in Orlando, Florida.
