

RAISBECK *ZR LITE* PERFORMANCE SYSTEM FOR 31/35/36 LEARJETS

THINK 8-14% FUEL REDUCTION

Raisbeck Engineering provides the Learjet 30 series with innovative drag reduction technology to enhance the takeoff, climb, cruise and descent performance of your Lear 30 series aircraft. A Raisbeck-equipped Learjet has a higher resale value than the factory aircraft, and allows you to bank fuel savings of up to 14 percent for every hour you fly! At 500 flight hours per year, annual savings average from €31,000 to €54,000.

ZR LITE is certified worldwide for the Learjet 30 series.
