

IF YOU'RE THINKING KING AIR OR LEARJET, THINK RAISBECK

RAISBECK LEADS THE WAY

If you want real performance improvements in takeoff, climb and cruise, with operational flexibility and fuel savings...think Raisbeck. Increased operational flexibility gives you greater range and the ability to carry more payload and fuel, all while enjoying substantial fuel savings. With products for the entire King Air family and 30 series Learjet, Raisbeck leads the way.

More than 60 percent of King Air 200 fleet, and nearly 40 percent of Lear 30 series are equipped with Raisbeck Performance Systems.

Certified worldwide and available exclusively through Raisbeck Authorized Dealers.
