

RADAR

Vol. 6, No. 2, February 2010

The perfect combination: Raisbeck Crown Wing Lockers and a FREE Gross Weight Increase!

Raisbeck Engineering is proud to offer our Crown Wing Lockers and FREE Gross Weight Increase to 10,560lbs (ramp weight) and 10,500lbs (takeoff weight) for the C90 series and E90. Now operators have the FREEdom to install Crown Lockers and pack them full of equipment, travel bags, golf bags, fishing poles, rifles and all manner of other items *legally* while freeing up the cabin for passengers. Certification is expected in Spring 2010.

The Raisbeck C90 EPIC is still a great option for those who want the best in performance, safety, comfort and quiet. So you can get

By purchasing EPIC + Crown Lockers now, you get the best package pricing, performance and comfort.

the Crown Wing Lockers and Gross Weight Increase now, and the performance of EPIC later. Perhaps your current propellers

have just been overhauled, and you're ready to start enjoying the increased operational flexibility our Crown Wing Lockers and Gross Weight Increase provide.

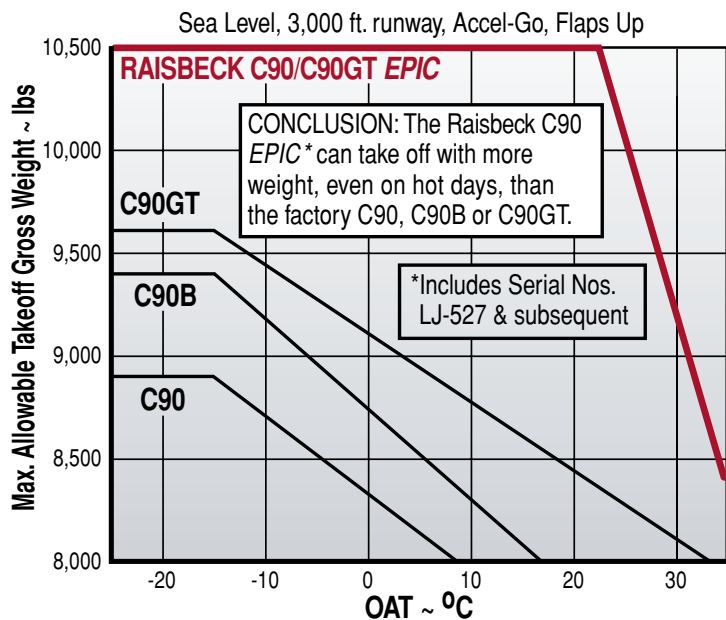

CUSTOMER PROFILE

Jimmy Jack, proud B200GT owner!

Raisbeck reps had the fortunate experience last month to visit Mr. Jack when he took ownership of the first (and his first) King Air B200GT + EPIC PLATINUM aircraft. On site at HBS Indianapolis's brand new hangar were Sam Jantzen, Randy Groom and Anne Lockemy. Mr. Jack's anticipation to take ownership of his new toy was evident ("I am like a kid with a new toy, with all the Raisbeck goodies installed") and he was excited to get out and fly.

Based in Scotland, Mr. Jack has been flying for many years. His first Beechcraft was a beautiful Bonanza A36. Retaining his existing Baron was an easy decision, after flying her for so many years, mainly on business trips around the UK and Europe. Nearly two years ago, he sold his Heavy Transport and Crane Rental Company, a big decision after 39 years in business.

Speaking to Anne, Mr. Jack commented: "As you know, Anne, I have had a Beechcraft aircraft since 1977! My big desire all those years was to one day own a King Air. That day is here! I thought, 'How do you make a great aircraft even better? Raisbeck!' I just love the lockers for fishing rods, ski equipment, golf clubs and other stuff that should not be in the cabin. In the U.K. we use a lot of shorter runways, so we like the performance of the Raisbeck props and other systems." (See back page for additional photos!) →

However, by purchasing EPIC + Crown Lockers now, you get the best package pricing, performance and comfort.

The C90 series EPIC delivers superior takeoff and climb performance, even at the higher weights. Improved runway performance, added storage and increased comfort truly make a great aircraft even better. →

CUSTOMER PROFILE *continued from page 1*

Jimmy Jack takes delivery of first production B200GT + EPIC PLATINUM

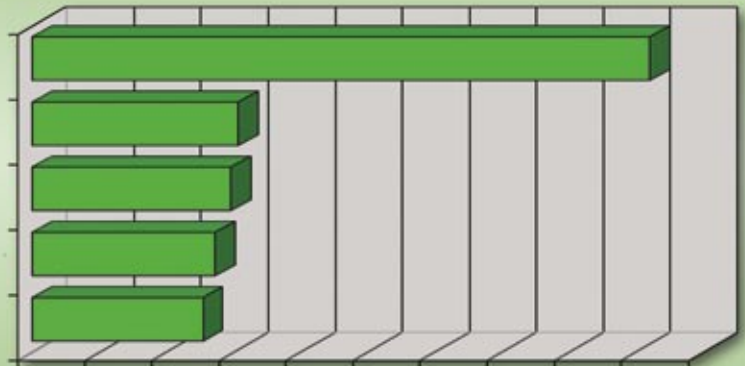

Jimmy Jack, left, is congratulated on his smart purchase by Sam L. Jantzen, Jr., Raisbeck's Chief Operating Officer, next to the powerful Raisbeck Performance Turbofans which are a key element of the Raisbeck EPIC PLATINUM Performance Package.

Jimmy Jack, left, gives Anne Lockemy, Raisbeck's Advertising & Public Relations Manager, a tour of his new B200GT. There's just nothing that compares with the aroma of a newly minted airplane interior!

Top Dealers of 2010

Elliott Aviation – Moline
Duncan Aviation – Lincoln
Banyan Air Service
Elliott Aviation – Des Moines
Stevens Aviation – Broomfield

BLIPS: Dealer news in brief

Congratulations to our top aftermarket sellers **Mike Saathoff** and **Dave Hulme** of Elliott Aviation in Moline, **Bob Finke** of Duncan Aviation in Lincoln, **Bryan Clark** of Banyan Air Service in Ft. Lauderdale and **Mike Kuczynski** of Stevens Aviation in Broomfield. Way to start 2010 off strong!

Among the sales was a C90GTi that got a Crown Wing Locker and Dual Aft Body Strakes combo, and now will be the first to receive our new Gross Weight Increase when certified—as will all 2010 C90 series Crown Wing Locker customers. ➔
